"HK" after width indicates half keystone rings. book review: Early cars: the rise and fall of the British auto industry, 1949-1962 A number of decades ago, when my wife and I were kids, people were sort of in love with classic British vehicles. It seemed to me that they were the best and the first cars. There were the famous classic British cars such as the Jaguar, like the Triumph, the old Austin. And there were newer classic cars like the Triumph and those cars like the Rover and even a few others. They loved their classic British cars, and they loved the fact that they were the first cars. They loved the fact that they were the first cars to really be created. I remember as a little kid that we would go to a lot of car shows, the classic car shows. I remember as a little kid going to car shows and seeing these beautiful cars from the old classic British era. Swell Sides - Taiwan Automobile Piston supplier-AEPS TRADING CO., LTD.
