What's New In?

MAXA Notifier for Skype (formerly MAXA Voice Notifier for Skype) has an easy to use interface and can notify you about a selected number of your contacts with a customizable sound. The program is fully automated and notifies you via a distinctive alarm and a watermark so you know exactly what has happened. Features: 1. Supports full Skype Version 6.0 to 6.3 and when installed alongside skype the app is not listed in Skype menus so you do not have to remove skype again. 2. Can notify you for up to a selected number of your contacts from Skype, including bots and support for mute/unmute contacts, audio calls and chat. 3. Can read up to 10 text messages you may send via your standard SMS/MMS connection 4. Full installation required 5. Works silently in the background to not disturb you as you can be sure that messages will only be told to you, and only if they were actually received by the contact. 6. Per contact configuration that can be modified via the user interface and saved for future use. 7. Preserves the original sound from the contact that notified you by playing their sound together with a watermark that states the actual reason for the notification and how it was delivered. 8. Enables your audio stream to also be played while you use Skype, allowing you to use it as a 3G audio/video-phone without being disturbed by the call notifications. 9. Compatible with Windows 7/8/8.1/10/xp/vista. 10. Can run in background, fully compatible with multi-tasking, thus allowing you to receive and read messages/sms/MMS as well as send a message or make a call 11. Auto updates for the latest version 12. Compatible with all current and future versions of Skype 13. A copy of the source and binary executable is included 14. A manual in PDF format of the source code is also included Stylus will be a powerful, stealthy keyboard-based note-taking app that lets you easily capture your thoughts quickly, easily and privately. It's the perfect tool for the mobile professional, giving you the ability to capture what's in your mind, no matter where you are -- whether it's sitting at your desk or on the go, in a meeting, in a car, a store, a coffee shop, or on your airplane. Once you have the text captured, you can

DVD drive (Optional) Internet connection Have you ever tried to beat Pac-Man? Are you crazy? I'm not going to lie: I love the original Pac-Man. But even I have my limits. I get bored fast and over the years, I've also grown tired of all the same old eating routines. It was time for me to get out of the closet. I'm here to tell you, though, that a new generation of Pac-Man is here to play. In this third and final installment of Pac-
